

# Grundfos Graduate Programme

## PLACEMENT: MEXICO

Do you want to join a value-based company that is a trendsetter in new water technologies and a dedicated and significant contributor to global sustainability? Do you want to develop yourself and kick start your career?

## You might be our next global graduate!

*Grundfos welcomes highly talented graduates with prosperous career perspectives to support us striving for operational excellence now and in the future. Are you ready to join?*

## DESIGN YOUR OWN DEVELOPMENT PLAN

The Graduate Programme is a two-year framework built of four project rotations tailored to develop you and kick-off your career. After each rotation you will enter a new position to join a high priority project with stakeholders from around the world. The rotations include 1 international location.

You get an opportunity to test the scope of your education and utilise your potential. We offer you regular evaluations, coaching, and mentoring to support your development and successful navigation in the organisation. When you have successfully finished the Graduate Programme, you have developed the capability to take on a strategic position within the global Grundfos organisation.

You can test yourself on the fields of **Maintenance and Engineer areas**.

## OUR OFFER

Throughout the 2-year Graduate journey, we constantly focus on the unfolding of your special talent and personality through individualized training, coaching, mentoring, and customized on-the-job assignments followed up by regular evaluations. After the completion of the program we will guide you to find the most relevant position for you within Grundfos.

## YOUR PROFILE

We look forward to seeing your application if you match to the below criteria:

- You hold Master degree in Engineering
- Great learning agility, high curiosity, have global mindset
- Willing to develop yourself further through 2 years of Graduate journey and onwards
- You have international experience such as international project work or abroad study
- Advanced English skills

We look for fresh graduates who can drive their projects in international environments, with high personal drive, and achieve success while creating good relationship with their supporting network.

## APPLICATION

Apply on [www.grundfos.com/graduate](http://www.grundfos.com/graduate) and enclose the following documents until **April 13, 2018**:

- CV listing your experience and competencies,
- Your motivation letter showing your drive, motivation, and ambition,
- Academic certificates showing your results,
- If you have not yet finished your degree, please attach the results you have obtained so far.

*Maria Nielsen Vasquez, Project Manager  
Former Graduate*

**EXPLORE  
YOUR  
TALENT**

Grundfos Graduate Programme is a unique opportunity to kick off your career. We offer 2 years tailor-made career development for you to explore global business challenges, trendsetting technologies and cultural diversity.

Explore trendsetting technologies and global business challenges – while you put your talent to the test.
